With no questions or comments from the Board, Price polled the audience. Angie Fuller posed concerns about the safety of her livestock, the natural gas line and the way of life she would like to see preserved. A discussion was on the Growth Plan and traffic on Highway 130. Price spoke a bit on growth in the county and the state. Some discussion was held on proposed size and quality of homes, as well as the large number of proposed lots. King offered the difference between the Rezoning and Preliminary/Final Plat Review processes and that most of the answers posed would be

answered during that process. Kevin Pickett initiated a discussion on the existing gas lines and what regulations may come with that. With no other questions or comments Price called for a motion. Michael Rudder made a motion to recommend for the Rezoning from A, Agricultural; R-2, General Residential and C, Commercial to R-1, Single Family Residential. Eric Bradford explained condition #2, that the owner has applied for the Variance and pointed out the need for the variance. Some discussion was held on easements and utility easements. Mike Popik, adjoining property owner voiced his concerns about keeping their privacy and their tree line. He further expressed the want to keep his area as rural possible. Some discussion was held on the 2" water line vs a 6" water line. David Stafford with the Winchester Springs/Center Grove Utility district spoke on the water line sizes along Himes Lane. Stafford gave information on current water taps at the parcel and what he would need. Stubblefield questioned Stafford if he thought this subdivision would pose water issues for any other residents in that area, Mr. Stafford stated he felt there wouldn't be any issues with two new taps. Michael Rudder made a motion to approve the Preliminary/Final for Ivy Acres (this name was unknown at the Time of the meeting but has been included to aid in future searchability) subject to the following conditions:

1. Install a fire hydrant if there is adequate flow and pressure to serve the development. If not, provide a letter from the utility company stating such.
2. Variance (south side yard) be approved for Lot #1 by the Franklin County Board of Zoning Appeals.

8. Show location and size of proposed water line.
9. Soil suitability tests to be done and proposed sewage systems to be approved by the County Environmentalist. If the subdivision is located on property that requires an interceptor or curtain drain, the size and outflow shall be designed by a Professional Engineer. In addition, if curtain drains are proposed for any lot in the subdivision, then a subdivision-wide drainage plan must be submitted and approved by the Planning Commission.
10. A Certificate of Approval for Subsurface Sewage Disposal be added to the plat and signed with restrictions, if any.

11. All certificates be signed.  
Mike Stubblefield seconded the motion, all aye.

Jeremy Price introduced the requested Discussion Only, made by Todd Boyles. Boyles gave a brief introductory on his grievance against the current fire hydrant requirements. Boyles expressed concerns that fire hydrants shouldn't be required on every new development as a standard. Jeremy Price spoke about the developments the Board approved during the June meeting, they removed the condition that required one, illustrating they do take every case into consideration on an individual basis. David Stafford spoke a bit on their process for a Water Availability study. Some discussion was held on the language in the Subdivision Regulations pertaining to the requirement of fire hydrants. Eric Bradford offered standards set by the governing code organizations that will be moving to require 500' instead of the now 1000' feet apart standard. Some discussion was held on standards of Fire trucks and hose length, showing the need for the new standard. No motion was needed for a discussion only.

There was no Old Business discussed.

The meeting adjourned at 7:21 PM by Chairman Jeremy Price.
